

Annual Report

FY 2022 – 2023

New Horizon: Footprints of Change and Innovation

About us

HOPE Foundation is dedicated to transforming lives and building stronger communities by addressing the needs of men, women, and children living in urban slums, remote villages, and disaster-affected areas. Our initiatives span education, employability, entrepreneurship, and health, creating pathways to dignity and self-reliance.

Through our “Cradle to Career” approach, we ensure that every child we support is guided from the early years of schooling to higher education, skill development, and ultimately into sustainable livelihoods—whether through employment or entrepreneurship.

Today, our programs touch the lives of more than 200,000 children in government and low-cost schools, and over 10,000 youth who are preparing to enter the workforce. These efforts are made possible through our strong and diverse partnerships—with government agencies, corporate India, startups, panchayat leaders, community stakeholders, and committed individuals—who share our belief in creating lasting social change.

At HOPE Foundation, we believe that change is not just possible, but achievable when we work together. By combining compassion with innovation, and collaboration with action, we continue our mission of building brighter futures for underserved communities across India.

Vision

To bring hope to those with none and to change the lives of everyone we meet – our donors, volunteers, staff, NGO partners, government, and the poor whom we serve.

Mission

Bringing Hope. Changing Lives.

From the COO's Desk

Dear Friends,

The last few years have tested our resilience as a nation. While FY 2022–23 brought signs of recovery, the aftershocks of COVID-19 are still felt in many communities. Yet, amidst these challenges, we have also witnessed remarkable courage, innovation, and solidarity.

At HOPE Foundation, our mission to serve the poor and underserved has remained unwavering. Over the past year, we expanded our work across education, healthcare, livelihoods, and community empowerment. From providing food and healthcare support to strengthening schools, micro-credit initiatives, and care homes, we stood alongside those who needed us most.

This year also marked a period of innovation and renewal. The pandemic taught us to reimagine how we work, and we responded with creative solutions that made our interventions more effective and sustainable. Behind every achievement stands a team that worked tirelessly, a community that trusted us, and partners who believed in our vision.

I am deeply grateful to our donors, partners, staff, volunteers, and beneficiaries. Your trust, generosity, and commitment have been the driving force behind every milestone. Together, we are leaving footprints of change and innovation, and moving steadily towards a brighter, more inclusive future.

New Horizons:

Transformative Projects & Initiatives in FY 22 – 23

Introduction of Digital Learning Platforms

Launched new e-learning platforms across regions to enhance educational outreach, particularly in underserved communities. These platforms offer interactive learning experiences and have significantly improved student engagement.

Expansion of Skilling Programs

Initiated advanced vocational training programs focusing on emerging industries like digital marketing and renewable energy. These programs aim to equip youth with future-ready skills and have seen a 30% increase in enrollment.

Healthcare Innovation

Implemented tele-medicine services in rural areas, providing access to quality healthcare remotely. This initiative has been crucial in reaching patients in remote locations who previously had limited access to medical facilities.

Sustainable Livelihood Projects (Skilling)

Launched community-based sustainable agriculture projects, particularly in the ECR region, empowering local farmers with modern techniques and tools. This initiative has resulted in a 25% increase in crop yield for participating farmers.

Support for Senior Citizens

Introduced specialized wellness programs for residents of old age homes, focusing on mental health and holistic well-being. These programs have received positive feedback and have improved the overall quality of life for the elderly.

Expansion of Orphanage Services

Established new orphanage facilities in the Mumbai and Chennai regions, increasing the foundation's capacity to support more children. These new centers focus on holistic child development, including education, health, and emotional support.

Highlights of the Year 2022-23

Partnership with HCL Foundation and Dell Technologies: Collaborations with these corporate partners allowed for the implementation of digital literacy programs in multiple regions, benefiting over 9,000 students.

Microcredit Programs OMEGA Healthcare: This partnership helped provide interest-free loans to 136 entrepreneurs, promoting entrepreneurship.

Partnerships with Omega Healthcare: New collaborations further boosted healthcare skilling programs, offering specialized training to individuals pursuing careers in healthcare.

Youth Empowerment through Skilling Programs: Over 1,500 youth across India benefited from HOPE Foundation's skilling initiatives, which provided vocational training in areas like tailoring, retail management, digital literacy, and electrical maintenance.

100% Pass Rate at HOPE Foundation School: Hope Foundation schools in Tharangambadi and Bangalore achieved a 100% success rate in the 10th Board examinations. Notably, Tharangambadi School has consistently maintained this exceptional record for the past 11 years.

Helping farmers adopt sustainable practices and increase productivity.

Tree Plantation

Highlights of the Year 2022-23

Distribution of Educational Kits: Over 5,000 educational kits, including books, uniforms, and learning tools, were distributed to underprivileged students across rural and urban areas.

Healthcare Initiatives for Vulnerable Communities: New healthcare programs provided essential medical services to over 2,000 individuals, including children, elderly residents, and HIV-positive individuals.

Support for Orphanages: More than 300 children in HOPE's orphanages received regular health check-ups, educational resources, and skill development programs.

Vocational Training Programs in Mumbai and Chennai: Hundreds of youth in these regions gained employable skills, securing jobs in sectors such as retail, healthcare, and IT.

Career Counseling and Job Fairs: These events benefited over 700 youth, providing them with career opportunities and necessary skills to enter the job market.

Highlights of the Year 2022-23

Environmental Initiatives: Beach clean-up and environmental awareness programs were introduced, particularly in coastal regions like ECR.

Support for Elderly Residents in Old-Age Homes: Wellness programs focusing on mental health and physical care were implemented for elderly residents.

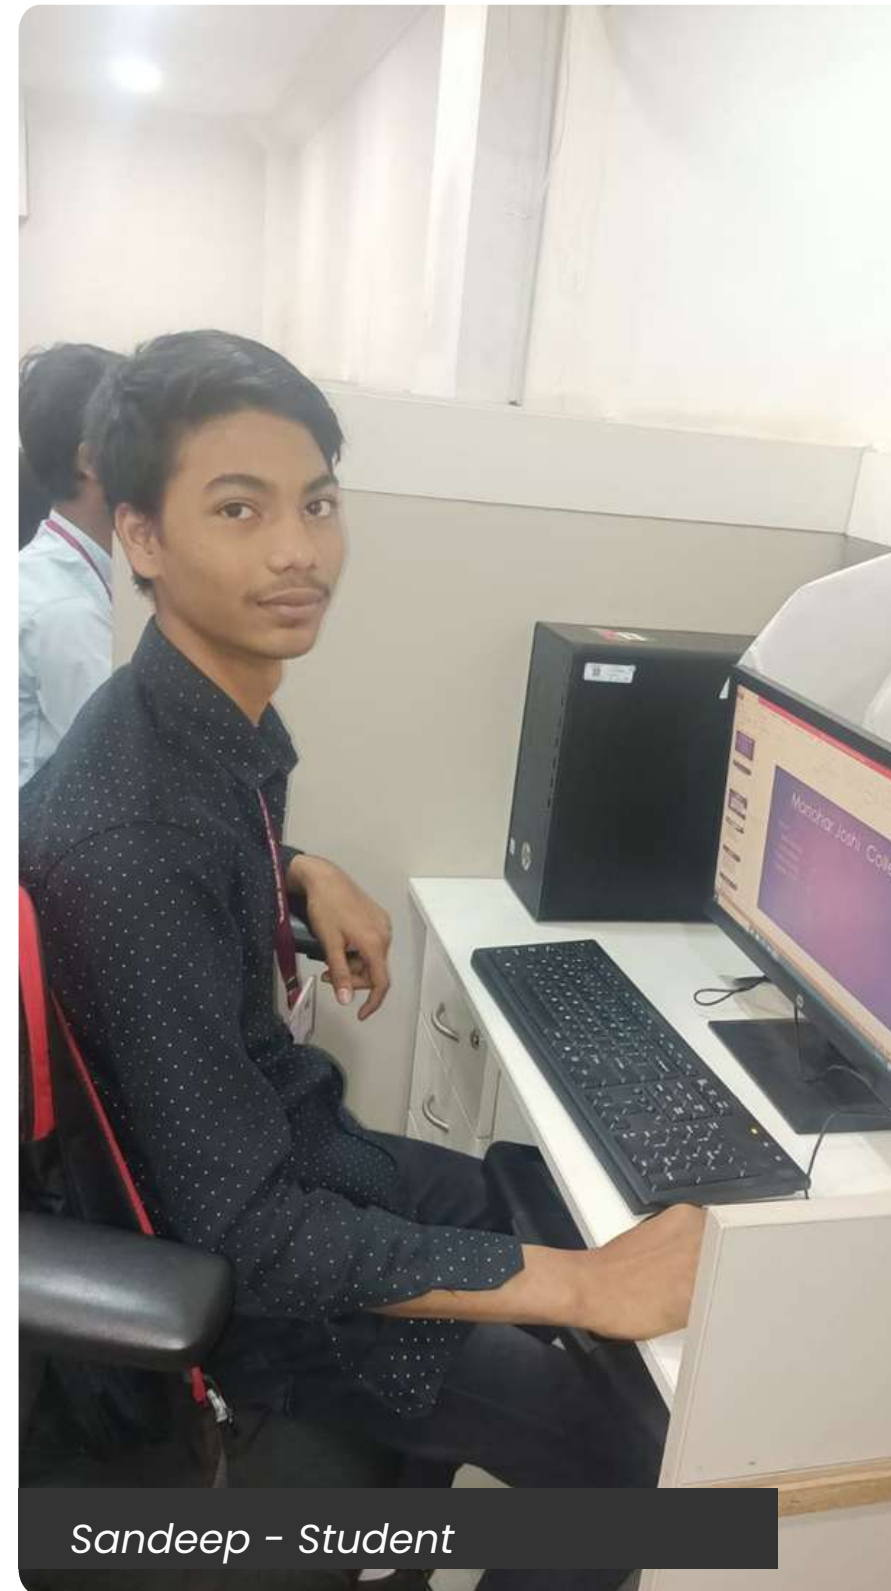

Expansion of Seaweed Farming: Seaweed farming initiatives were expanded in the ECR region, providing sustainable livelihoods to over 100 families.

Volunteer Engagement: Over 500 hours of volunteer work was facilitated across regions, with corporate partners participating in educational and skill development activities.

Support for HIV-Positive Children: Continued medical and educational care for children living with HIV/AIDS, ensuring their well-being and academic growth.

Key Event Highlights

2022-23

National Education Drive

Partnered with TechEd India to launch a nationwide digital literacy campaign, impacting **over 10,000 students** across Bengaluru, Delhi, Mumbai, Chennai, and ECR regions.

Skill India Initiative

Collaborated with the Skill India Mission to conduct vocational training programs in all regions, resulting in employment opportunities for **over 5,000 youth & women**.

Health for All Campaign

Joined hands with **Apollo Hospitals** to organize a series of health camps, providing free medical check-ups, screenings, and vaccinations to **more than 25,000 people** in remote and underserved areas.

Elder Care Awareness Week

Hosted in collaboration with AgeWell Foundation, this event across all regions focused on raising awareness about the needs of the elderly, including mental health and social inclusion, benefiting **over 500 residents in old age homes**.

Children's Day Celebration

Conducted in partnership with Save the Children, this event included fun activities, educational workshops, and distribution of essential supplies to over 2,000 children in orphanages.

Key Event Highlights

2022-23

Women Empowerment Summit

Co-hosted with **UN Women**, this event brought together experts and community leaders to discuss and promote women's rights and economic empowerment, leading to the launch of new support programs in all regions.

Environmental Awareness Campaign

Partnered with local NGOs and schools across regions to conduct tree plantation drives and environmental education sessions, engaging **over 15,000 community members and students**.

Inclusive Education Conference

Organized in collaboration with **UNICEF**, this event focused on promoting inclusive education for children with disabilities, leading to the adoption of new inclusive practices in schools supported by the HOPE Foundation.

Mental Health Awareness Month

In partnership with Mental Health India, this initiative included workshops, counseling sessions, and outreach programs across all regions, benefiting **over 10,000 individuals**, including children, elderly, and the general community

World Orphans Day

Celebrated with support from corporate sponsors, this event focused on raising funds and awareness for orphanages, leading to significant donations and the improvement of facilities in multiple regions.

Programmatic Overview

Education Initiatives

Implemented digital literacy programs in collaboration with Dell and HCL Foundation, impacting over 9,000 students and enhancing their technical skills.

Mother's Club Literacy Program (16th JUNE'22)

In the mother's club, we have talented mothers. They want to learn new things although they have less time for themselves. They were taught some basic awareness regarding a few day-to-day activities. Mothers were also issued books from the library so that their literacy can improve, and they can practice when they have time.

Now, all mothers can introduce themselves without any hesitation.

HOPE Foundation Matriculation High School, Chennai

Support and Essentials: Workbooks, uniforms, and other essentials were distributed, supported by sponsors like M/s BNY Mellon, benefiting 454 students.

ICT Integration: E-tabs and technology were used to enhance the learning experience, focusing on self-learning and interactive visual media.

Distributing essentials to students

STEM Lab Implementation Project (2022-23)

The STEM Lab Implementation Project, funded by **AQuity Solutions India Private Limited**, aimed to enhance science and math education in **24 schools across 4 states**. This initiative directly impacted **8,000+ students in grades 5 to 10**, equipping schools with state-of-the-art STEM infrastructure and resources to foster improved learning outcomes.

Implementation Details

Locations Covered:

Karnataka

4 schools in Bangalore

Maharashtra

8 schools in Mumbai and Nagpur

Tamil Nadu

8 schools in Chennai and Coimbatore

Telangana

4 schools in Nirmal

Target Beneficiaries:

Students:
Grades 5 to 10

Stakeholders: Teachers, parents, and school communities

Key Objectives

Enhance student engagement and outcomes in science and math.

Upgrade learning infrastructure with advanced STEM labs.

Support teachers with professional development and resources.

Professional development training

Deliverables

STEM Room Infrastructure

- Construction of labs with workstations, tools, and safety measures.
- Provision of science kits, robotics tools, and math activity materials.

STEM Lab room infrastructure

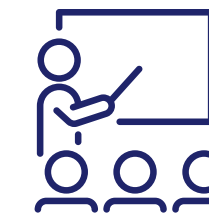

STEM Room Models

- Custom-designed hands-on projects aligned with state curricula.
- Integration of lab activities into classroom teaching.

Hand designed projects

Teacher Training

- Professional development workshops on using STEM resources effectively.
- Ongoing mentorship and support to ensure effective implementation.

Professional development sessions for teachers

Impact on Community

Students: Increased participation and enthusiasm for science and math subjects.

Teachers: Improved confidence and teaching methodologies for STEM education.

Community: Active involvement of parents and local stakeholders in supporting education initiatives.

The project has successfully laid the foundation for enhanced STEM education by providing modern resources, comprehensive teacher training, and engaging STEM labs. The initiative promises a lasting impact on the educational landscape, empowering over 8,000 students to achieve academic excellence.

Skilling and Livelihood Programs

Vocational training centers provided skills in tailoring, retail, benefiting hundreds of youth and improving their employability. and digital literacy,

Accenture Vocational program:

Program Duration and Goal: The one-year vocational training program aims to impact the community by providing essential skills.

Courses Offered: Courses include Basic Computers, MS Office, Tally, DTP (CorelDraw, PageMaker, Photoshop), Spoken English, and Life Skills.

Economic Impact: The program has helped students earn 2-3 times more than their parents, improving families' socio-economic status.

Earnings: Graduates earn between Rs. 8,000 and Rs. 15,000 per month.

Spoken English & Life Skills: Courses enhance English proficiency and prepare students for interviews and workplace interactions.

Training session on workplace sexual harassment laws, fostering awareness and safety in the work environment

Delivering graduation certificate to students in Trichy, Tamilnadu.

Testimonials and Impact Stories

“

Hello, I am Saniya Taskeen, a graduate in Information Science and Engineering from Brindavana College of Engineering, located in Bangalore. I am pleased to share that enrolling in this course stands out as one of the most well-judged and timely decisions I have made. This

decision has significantly enriched my understanding of Python. I extend my heartfelt gratitude to the HOPE Foundation and our sponsor, SONY, for providing us with this invaluable opportunity to partake in the Python course without any cost.

- Saniya Taskeen

“

Hello, I'm Supraja. I am currently employed as a Process Executive at Pure Review India, with a monthly income of 15,000 INR. Both my parents are dedicated farmers, and I am the eldest of three sisters. My aspirations are set high, and I envision a prosperous future for myself. The opportunity to learn AI PYTHON on this platform has been truly invaluable. I extend special gratitude to the HOPE Foundation for making this possible.

-Supraja

“

I am Kowsalya, a B.Com (CA) graduate, and I learned about Tally Training through the HOPE Foundation. Although initially hesitant as a housewife, the team motivated and guided me to pursue the course. The training provided in-depth accounting knowledge and practical skills, making it easy to understand and apply in Tally software. After completing the course, I secured a job as an Account Assistant at J Automobiles with a salary of Rs. 10,100, which has greatly helped my family's financial situation. I am grateful to the HOPE Foundation and Omega teams for their support and guidance.

- Kowsalya
