

Annual Report

FY 2023 – 2024

Success Towards The Future

HOPE
foundation

About us

HOPE Foundation is dedicated to transforming lives and building stronger communities by addressing the needs of men, women, and children living in urban slums, remote villages, and disaster-affected areas. Our initiatives span education, employability, entrepreneurship, and health, creating pathways to dignity and self-reliance.

Through our “Cradle to Career” approach, we ensure that every child we support is guided from the early years of schooling to higher education, skill development, and ultimately into sustainable livelihoods—whether through employment or entrepreneurship.

Today, our programs touch the lives of more than 200,000 children in government and low-cost schools, and over 10,000 youth who are preparing to enter the workforce. These efforts are made possible through our strong and diverse partnerships—with government agencies, corporate India, startups, panchayat leaders, community stakeholders, and committed individuals—who share our belief in creating lasting social change.

At HOPE Foundation, we believe that change is not just possible, but achievable when we work together. By combining compassion with innovation, and collaboration with action, we continue our mission of building brighter futures for underserved communities across India.

Vision

To bring hope to those with none and to change the lives of everyone we meet – our donors, volunteers, staff, NGO partners, government, and the poor whom we serve.

Mission

Bringing Hope. Changing Lives.

From the COO's Desk

Dear Friends,

FY 2023–24 has been a truly dynamic year for HOPE Foundation, a year of growth, innovation, and renewed commitment to transforming lives. As we look back, we are filled with pride and gratitude for the remarkable milestones achieved together with our partners, team, and the communities we serve.

Our skill development programs remained at the heart of our mission this year. Through a wide range of training sessions, both online and offline, we were able to reach and empower thousands of young people across the country. Many of them have successfully embarked on new careers, while others have advanced in their existing jobs, gaining the confidence and financial independence to support their families. Each of these stories is a testament to the power of opportunity and the resilience of our youth.

What makes this journey even more inspiring is the passion and dedication of our team members, who worked tirelessly to ensure that every participant received not only skills, but also encouragement, mentorship, and hope. Their efforts, combined with the steadfast support of our donors, partners, and well-wishers, have made it possible for us to expand our reach and deepen our impact.

As we step forward, we remain committed to equipping more individuals with the tools they need to succeed and to creating a society where no one is left behind. Together, we are not just training young people but we are shaping futures, uplifting families, and strengthening communities.

On behalf of HOPE Foundation, I extend my heartfelt gratitude to all who have been part of this journey. Your belief in our vision continues to inspire us, and with your support, we will keep stepping towards greater success in the years ahead.

Stepping Towards Success: Our Journey in 2023–24

Introduction to the Theme

The theme for this year's annual report, "**Stepping Towards Success**," represents the progress we've made in empowering communities to overcome barriers and achieve sustainable development.

This theme underscores our belief that every step forward, no matter how small, brings us closer to creating a more equitable society. From skilling initiatives that enable individuals to secure better jobs to healthcare programs that provide life-saving services, every program at HOPE Foundation is designed to help beneficiaries take steps towards a brighter, more self-sufficient future.

How It Shaped Our Work

Throughout the year, the theme "**Stepping Towards Success**" has influenced the design and implementation of our programs. We focused on creating opportunities for growth, whether through education, skilling, or healthcare services. Our team worked tirelessly to ensure that each initiative was not only impactful but also sustainable, allowing beneficiaries to build on their progress year after year. By fostering an environment of support and empowerment, we helped individuals and communities move forward, one step at a time.

ECOVE students

Admission campaign

Mental health counseling

STEM education expansion

New Initiatives Undertaken

Digital Literacy for Women in Rural Areas:

Launched a new program focused on improving digital literacy among rural women, enabling them to access new opportunities and resources.

Mental Health Services:

Recognizing the importance of mental well-being, we introduced mental health counseling services across all regions, reaching **over 2,500 individuals**.

Entrepreneurship Development:

Introduced a new entrepreneurship program aimed at helping women and youth start small businesses, providing them with training, mentorship, and seed funding.

STEM Education Expansion:

Expanded our Atal Tinkering Labs program, setting up new labs in government schools to foster creativity, critical thinking, and problem-solving skills among students.

Health and Nutrition Programs for Children:

Implemented comprehensive health and nutrition programs in schools, addressing malnutrition and promoting healthy lifestyles for **over 10,000 children**.

Highlights of the Year 2023-24

Successful launch of the SONY-HOPE AI School for Girls and Accenture Centre of HOPE, providing digital and AI training to underserved young women. A community-driven tree plantation project with Juniper Networks planted **620 fruit saplings**.

Achieved a **100% pass rate** in the 10th Board exams at HOPE School, with numerous students excelling in STEM and sports. Led relief efforts after **Cyclone Michaung**, distributing essential kits.

Education, community engagement, and holistic development for children from disadvantaged backgrounds, empowering them through educational initiatives like Samsung School of Hope and the Cradle to Career program.

The implementation of STEM labs in four schools, specifically two in Mohali (Punjab) and two in Vizag (Andhra Pradesh), supported by **AQuity Solutions India Private Limited**.

VILLAGE OF HOPE PROJECT: This year was remarkable in terms of student enrollment and success. Many students joined, completed their internships, and secured placements in fields aligned with their interests, earning competitive starting salaries as freshers. Overall, this year marked another milestone of success.

Successful completion of programs like the Bajaj Finserv-Hope Artificial Intelligence School for Girls, including the establishment of **350+ students** enrolled, and 7 batches formed.

Tree plantation drive

Cradle to Career program

Relief efforts after Cyclone Michaung

Bajaj AI program mobilization

Major Achievements and Milestones

80%

80% placement rate at SONY-HOPE AI School for Girls and successful skills development programs at Juniper Centre of HOPE, empowering local communities through vocational training.

100%

HOPE School achieved a 100% pass rate in 10th Board exams. Award-winning STEM and sports achievements at the state level.

Secured jobs for youth

318 youth from Village of HOPE secured jobs, while Asharan Orphanage provided 794 children with protection, care, and emotional support, enabling 372 family reunifications and 256 adoptions.

Placement webinars

The successful placement webinars and the creation of a **Python Solutions Group** to ensure that students obtained their certifications and project presentations.

Key Event Highlights 2023-24

The SONY-HOPE AI School for Girls graduation ceremony celebrated 80% job placements.

The Annual Proficiency Award Ceremony celebrated academic excellence, and the STEM Competition showcased student achievements in science and innovation.

Juniper Networks' Tree Plantation Drive aligned with the company's anniversary, promoting environmental sustainability.

Village of HOPE held a graduation ceremony for vocational training students, while Children's Day at Asharan Orphanage featured cultural programs and a health camp.

Webinars like those by TransUnion CIBIL (on **financial literacy**), Samuel Patole (on **OpenAI**), and the Accenture session on **interview skills**.

SONY-HOPE AI school graduation ceremony

Juniper Networks' Tree Plantation Drive

Science exhibition

Major Collaborations and Partnerships

Bajaj Finserv program graduation ceremony

Juniper Networks partnered to establish Juniper Centre of HOPE, while Sony Pictures Network and Accenture India provided resources for technical training.

Local government and community partners supported disaster relief post-Cyclone Michaung and various educational initiatives.

Collaboration with Dr. Lal Path Labs helped train youth in healthcare and facilitated job placements. Accenture and Sony Pictures Network supported vocational training.

Bajaj Finserv’s continued support for the **AI School for Girls** in Bangalore and Pune.

OMEGA Forum for Social Impact: The **OMEGA Forum for Social Impact** had its soft launch in Tharangambadi, with stakeholders and shareholders joining in. The event was pulled together jointly by OMEGA Healthcare and HOPE Foundation, and hosted by HOPE Foundation, Tharangambadi.

Community launch of Omega Healthcare Forum for Social Impact

Programmatic Overview

Education Initiatives

HOPE Foundation’s education initiatives focus on providing quality education to children in underserved communities. In 2023-24, we expanded our Atal Tinkering Labs program, reaching over 16,000 students across four states. These labs provide a hands-on learning environment where students can explore STEM subjects and develop critical thinking skills. Additionally, we introduced digital literacy programs for students in rural areas, equipping them with the skills they need to succeed in an increasingly digital world.

The Samsung School of Chinnangudi remains a beacon of academic excellence, offering holistic development, academic engagement, and a sense of community through activities like Republic Day celebrations. Student case studies like Vithisha and Ananya showcase the power of supportive education in transforming lives.

The Cradle to Career initiative aims to provide educational and vocational skills to individuals at various stages of life, emphasizing technical, extracurricular, and employable skills.

Student – Samsung School of Hope

STEM Lab Implementation Project (2023-24)

Overview

The **STEM Lab Implementation Project**, supported by **AQuity Solutions India Private Limited**, introduced advanced STEM labs in **four schools across two locations: Mohali (Punjab) and Vizag (Andhra Pradesh)**. The initiative aimed to improve science and math learning outcomes for students in grades 5 to 10 by enhancing infrastructure, equipping schools with modern resources, and empowering teachers through professional training.

Project Objectives

Enhancing Learning Outcomes:
Improve student proficiency in science and math through hands-on and interactive learning.

Upgrading Learning Infrastructure:
Provide schools with state-of-the-art STEM labs and resources to support practical learning.

Stakeholder Engagement:
Involve students, teachers, parents, and school communities to create a supportive ecosystem for STEM education.

Practical learning of Respiratory system

Project Deliverables

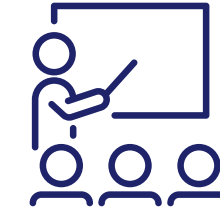

STEM Room Infrastructure

- **Design and Setup:** Each lab was thoughtfully designed to foster interactive learning and equipped with workstations and essential tools. **Resource**
- **Provisioning:** Schools received science experiment kits, robotics tools, and other practical learning materials to facilitate hands-on education.

STEM Room Models

- **Customized Models:** Tailored to align with the local curriculum, these models enhanced contextual understanding of science and math concepts. **Curriculum Integration:**
- Teachers received resources and guidelines to seamlessly incorporate lab activities into existing curricula.

Teacher Training

- **Professional Development Workshops:** Teachers attended sessions focused on innovative teaching techniques and effective utilization of STEM resources.
- **Ongoing Support:** Continuous mentorship ensured the successful implementation of STEM activities in classrooms.

Student participating in science project

Community engagement

Impact on community

Student Engagement: Increased interest and participation in science and math subjects due to the interactive and experiential nature of the STEM labs.

Teacher Confidence: Educators reported greater confidence in delivering STEM content and engaging students in practical learning.

Community Involvement: Parents and local communities demonstrated increased support for STEM education initiatives.

The STEM Lab implementation for the academic year 2023-24 has laid a robust foundation for science and math education in Mohali and Vizag. With upgraded infrastructure, enriched resources, and empowered educators, the project has the potential to drive long-term improvements in educational outcomes, benefiting both students and their communities.

Skilling and Livelihood Programs

Our skilling and livelihood programs aim to empower individuals with the skills they need to secure sustainable employment. This year, we trained over 5,000 individuals in AI-Python, digital literacy, and vocational skills such as tailoring and retail management. Our job placement programs saw an 80% success rate, with over 200 individuals securing jobs in sectors like hospitality, healthcare, and retail. We also launched an entrepreneurship development program, providing women and youth with the tools and mentorship they need to start their own businesses.

The Endurance Centre of Vocational Empowerment (ECOVE)

A collaboration between Sevak Trust, Endurance Manufacturing CSR wing, and HOPE Foundation, offers vocational training for school dropouts, economically disadvantaged youth, and unemployed individuals in Aurangabad's industrial zones.

Livelihood and Employability for Displaced Tribals

Location: Navi, Dapchari, Kosbad, District Palghar, Maharashtra 401403

Goal: Empower 3,500 individuals

This 3-5 year project aims to transform agriculture in Palghar through sustainable practices such as organic farming, crop rotation, zero pesticide usage, improved irrigation, and mulching. Saplings of mango, jackfruit, bamboo, and cashew nut will be planted to enhance income and biodiversity, empowering displaced tribal communities with sustainable livelihoods.

Sony AI – Python: Training in Python programming for Artificial Intelligence skills.

Making India Employable by Thomson Reuters: Training program targeting global employment standards.

DELL ATL Program: Employability skills training in Artificial Intelligence and IT.

Education Development Program in 5 Schools in Pune by ASHTECH: Skills training and educational development in Pune.

Healthcare Services

HOPE Foundation’s healthcare services continued to expand in 2023-24, reaching over 50,000 beneficiaries through mobile clinics, health camps, and mental health counseling services. Our focus this year was on maternal and child health, mental health, and community healthcare outreach. We partnered with local governments to provide free healthcare services in rural areas, ensuring that underserved populations had access to essential medical care.

OMEGA Forum for Social Impact:

The OMEGA Forum for Social Impact had its soft launch in Tharangambadi, with stakeholders and shareholders joining in. The event was pulled together jointly by OMEGA Healthcare and HOPE Foundation, and hosted by HOPE Foundation, Tharangambadi.

Cancer Awareness Day program :

On November 7, 2023, the Manpower Vocational Training Centre, Hope Foundation Tharangambadi, hosted a Cancer Awareness Day program for its staff and students. Organized collaboratively by the staff and students, the event aimed to educate participants about cancer prevention, early detection, and treatment.

The program featured two main activities: a special tips session and an engaging quiz game. Mr. Hariharen, the centre's field executive, led the special tips session, offering valuable advice on reducing cancer risk. He emphasized lifestyle changes such as avoiding tobacco, alcohol, and processed foods, maintaining a healthy weight, staying physically active, and scheduling regular screenings. Additionally, he outlined common signs and symptoms of cancer, urging attendees to seek medical attention for any unusual changes in their bodies.

The Cancer Awareness Day program proved to be an enriching experience for all involved. It enhanced the participants' understanding of cancer and inspired them to adopt healthier lifestyles to reduce their risk. The event also promoted teamwork and camaraderie, creating an enjoyable and educational atmosphere for the staff and students.

Launch event of OMEGA Forum for Social Impact

Yoga Day practice session

YOGA DAY

Yoga, a holistic practice promoting physical and mental well-being, continues to gain global recognition for its profound benefits. In celebration of this ancient tradition, the Hope Foundation organized a Yoga Day Programme on June 27, 2023, at GHPS Orohalli. The event brought together students from all classes, Hope Foundation staff, government staff, and a dedicated yoga instructor for a day of learning and self-care.

The programme began with an interactive yoga session for the students, followed by a session for the teachers. Participants were introduced to various yoga postures and techniques, fostering awareness of their health benefits. Additionally, a speech highlighted yoga's role in enhancing concentration and focus, emphasizing its value for both students and teachers in their daily lives.

The event was a resounding success, leaving a positive impact by spreading awareness of yoga's importance in promoting a balanced and healthy life. The initiative inspired participants to incorporate yoga into their routines, reaffirming its relevance in modern times.

Old Age Homes and Orphanages

Our old age homes provide a safe and supportive environment for elderly individuals who have no family or means of support. This year, we enhanced the quality of care provided at our homes, introducing new health and wellness programs to improve the physical and emotional well-being of residents. Our orphanages continue to provide comprehensive care for children, including education, healthcare, and emotional support.

Elderly Care Home in Chennai: A Year of Service and Compassion

The **Elderly Care Home in Chennai** recently marked its first anniversary, celebrating a year of dedicated service to destitute women in need. Situated along the scenic ECR Road, close to Mahabalipuram, this home has provided short-term care and shelter to nearly 15 women during its inaugural year.

Designed as a sanctuary for women who lack familial support in their old age, the home offers a peaceful and nurturing environment, helping them live their golden years with dignity and tranquillity.

This noble initiative is run in partnership with the **Dr. Ashok Life Foundation**, established by **Mrs. Latha Krishna**, in memory of her late husband, **Capt. Ashok Krishna**. The care home stands as a testament to compassion and community service, continuing to extend a helping hand to those in need.

Programs as per Regions

Bengaluru Region

AI-Python Training Programs

Trained 1,000+ individuals in AI-Python, digital literacy, and other technical skills.

Health Camps

Organized 20+ healthcare camps serving 10,000+ individuals in rural areas.

Environmental Awareness

Launched water conservation and waste management programs in 10 schools, reaching 5,000 students.

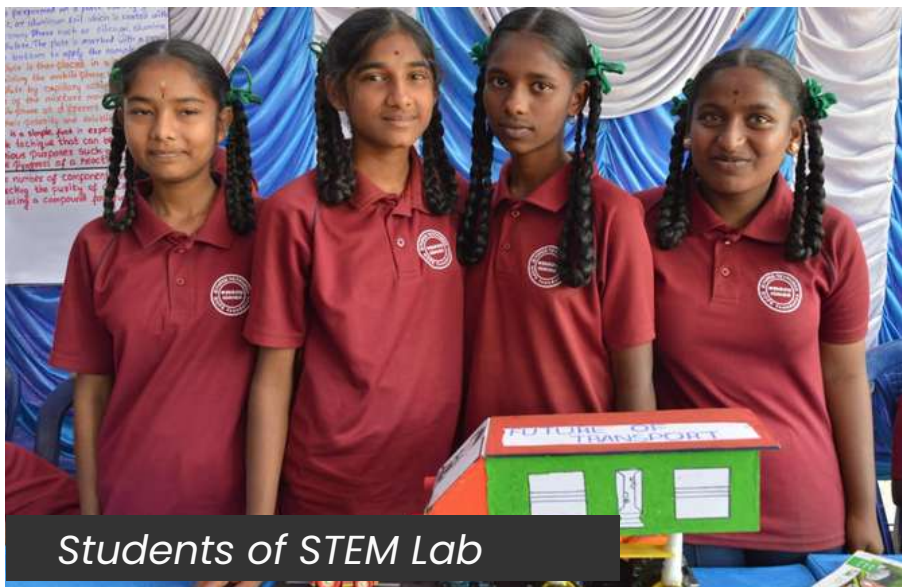

Women's Empowerment

Empowered 500 women through entrepreneurship and skilling programs.

Job Fairs and Placement Drives

Organized job fairs, with 70% of attendees securing employment.

Healthcare Camps

Conducted 20+ healthcare camps focusing on maternal and child health, benefiting 8,000+ individuals.

Donors and Volunteers

Essential to the success of programs, donors and volunteers supported a range of initiatives, from education to healthcare.

We would like to express our sincere gratitude to the donors and volunteers who have supported HOPE Foundation's mission. This year, over 1,000 volunteers contributed their time and skills to support our initiatives in education, healthcare, and community development.

Government and Institutional Support

Supported initiatives across all regions, ensuring access to education, vocational training, and healthcare.

HOPE Foundation has worked closely with local governments and institutional partners to ensure the successful implementation of our programs. Their support has been critical in providing healthcare, education, and skilling opportunities to underserved communities.

Our Partners

Empanelment & Accreditation

This year, Hope Foundation has been honored with several commendations, reflecting our unwavering commitment to skill development, education, and community empowerment. These recognitions underscore our dedication to creating meaningful impacts across diverse sectors. Key highlights include:

Recognitions and Certificates of Appreciation

District Education Office:

A certificate of appreciation was awarded by the District Education Office for outstanding contributions to skill development initiatives that have enhanced educational outcomes for students.

Malad Municipal Secondary School, Mumbai:

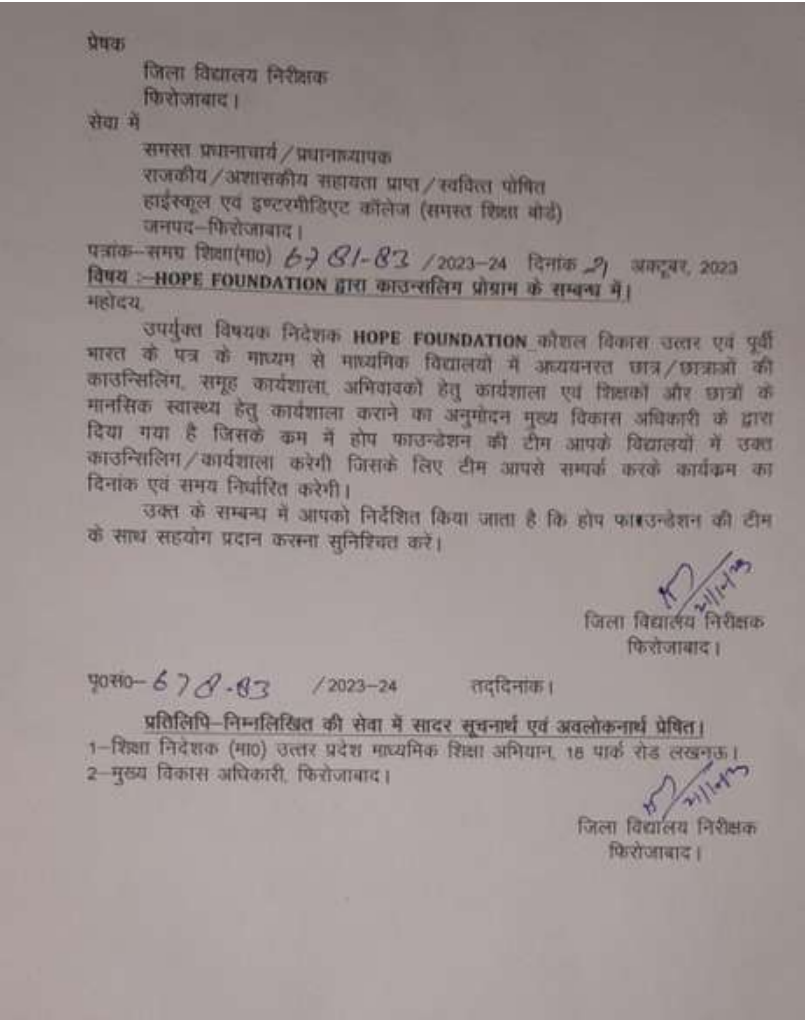

A letter of appreciation recognized our exceptional efforts in advancing innovative teaching methods as an ATL (Atal Tinkering Lab) Trainer, fostering creativity and practical learning among students.

Government Ramnarayan Chellaram College of Commerce and Management, Bengaluru:

Hope Foundation received an appreciation letter for conducting impactful skill development training programs that catered to the specific needs of the college's students, delivered with excellence and tailored precision.

Rajakalaingan Award – Best NGO Award

HOPE FOUNDATION RECEIVES THE RAJAKALAINGAN AWARD

The Hope Foundation, Tharangambadi, proudly received the prestigious **Rajakalaingan Award – Best NGO**, along with a Gold Medal and a certificate, in recognition of its exceptional contributions to education, community development, and social welfare activities, including Covid relief efforts during 2021-2022.

This honor was awarded based on key achievements such as:

Consistent centum results in Tamil Nadu Board examinations.

Initiatives in community development and women empowerment.

Comprehensive Covid relief measures.

The award, presented by the **Tamil Nadu Cultural Academy**—an ISO 9001:2015 certified organization with 27 years of promoting Tamil Nadu arts and culture—celebrates the Hope Foundation's unwavering commitment to transforming lives across Tamil Nadu.

The ceremony took place on **7th May 2023** at Rethinavel Devar Hall, Trichy, with esteemed dignitaries in attendance, including the **Honorable Education Minister of Tamil Nadu, Mr. Anbil Mahesh Poiyamozhi**, along with notable personalities from the Tamil film industry.

This recognition is a testament to the collective efforts of our dedicated staff, colleagues, and stakeholders, whose tireless commitment continues to bring meaningful change to underserved communities.

Together, we aspire to build a brighter future.

Certificate of Achievement

The foundation's significant role in advancing inclusive education and its alignment with government mandates for skill development was also certified and applauded by numerous educational and corporate bodies.

Rajakalaingan Award

Testimonials

Usha
Multiple business owner

Usha, a determined woman with a family of four, wanted to give her children the best education. Despite running juice shops successfully for eight years, her income wasn't enough. Wanting to expand, she faced high-interest loans as a barrier.

HOPE Foundation's interest-free loans became her lifeline. Usha expanded her shop, boosting profits. She added a fruit shop and later, a flower business, creating a thriving enterprise. Her story shows the power of hard work, smart expansion, and diversification. With fair financial aid and a clear plan, she turned her small business into a stable income source, securing her family's future and providing quality education for her children.

Joyti Rameshwar Bocharé
Graduate, 24th Batch of Tailoring,
Endurance Centre of Vocational
Empowerment Skill Program

After completing her tailoring course, Joyti Bocharé opened her own boutique and started a vegetable-selling business, now earning Rs. 40,000 per month to support her family. She credits her success to the guidance and encouragement of Zakera Madam and Nikita Ma'am, who motivated her to overcome challenges and achieve her goals.

Joyti's journey is a testament to hard work, determination, and the power of support, inspiring others to pursue their dreams.

Manikandan.K
8th Standard, Government Higher
Secondary School, Avadi

As a member of the T7 Tank Factory Police Boys & Girls Club, I have received invaluable support from the HCL Foundation and HOPE Foundation. Balancing academics and sports, I have consistently performed well in my studies while pursuing my passion for Kabaddi since the 6th standard.

Through dedication and hard work, I progressed from school-level matches to state trials. Despite initial financial challenges, my mother was convinced of the value of sports through the guidance of a PBGC teacher.

I am deeply thankful for the support that has allowed me to excel in Kabaddi and strive for a bright future.
